Year 3: Spring		Key Question: Who lives in Antarctica?					
Lesson 1 What is climate?		Lesson 2 Where is Antarctica?		Lesson 3 Who lives in Antarctica?	Lesson 4 Who was Shackleton?	Lesson 5 Can we plan an expedition around school?	Lesson 6 How did our expedition go?
 climate	Long-term weather conditions in a specific region.	 drift ice	Thin, floating pieces of ice not attached to a glacier.	 lines of latitude	Invisible horizontal lines mapped on our globe to show how far north or south a place is from the Equator.	 lines of longitude	Invisible vertical lines mapped on our globe to show how far east or west a place is from the Prime/Greenwich meridian.
 climate zone	Areas of the world grouped together that have a similar climate.	 hemisphere	One half of the Earth.	Lines of latitude and longitude 		Climate zone map 	
 compass points	North, east, south, west, north-east, south-east, south-west, north-west	 ice sheet	A layer of ice covering the land for a long period of time, also known as a glacier.			Physical features of Antarctica 	
 iceberg	Large, floating chunks of ice that break off a glacier.	 ice shelf	A thin layer of ice extending off a glacier into the sea.	Antarctica is located at the southern-most point on the globe. It experiences extreme blizzards and snowstorms, has many mountain ranges and even an active volcano.
