Covid Catch-up Premium 2020-2021

The government have allocated an amount of money for each pupil to enable them to catch up from the effects of being in lockdown due to COVID-19.

Schools should use this funding for specific activities to support their pupils to catch up for lost teaching over the previous months, in line with the guidance on curriculum expectations.

Schools have the flexibility to spend their funding in the best way for their cohort and circumstances.
